

# New! HP-3 Digital Piano

Dark Rosewood

## Just the Right Features You need

Suzuki has struck just the right chord with our newest value packed Home Digital Piano. Even the most demanding virtuosos will appreciate our new HP-3, which combines a lightweight compact stage piano with traditional cabinet design.

The HP-3 is a streamlined digital piano which provides the same authentic grand piano sound and 15 other stereo sampled instruments that bring Symphony Hall to your home. In addition to 16 instrument voices, the HP-3 offers split/layer, digital effects and 58 built-in tunes with songbook. Exceptional features also included MIDI in/out and headphone jacks.

Suzuki has long been a leader in both manufacturing musical instruments and in music education. Regardless of price point, all Suzuki Digital Pianos offer hammer-action keyboard technology, simulating that of an acoustic piano key-bed. The result is a sound and feel that is remarkably similar to playing an acoustic piano.

### Specifications
